

COMP3900/6390 Assignment 4 Specifications 2016
Individual assignment. Marked out of 20, worth 5%

Overview of this assignment:

Write about your own personal experience of designing, constructing and evaluating an early-stage prototype of an interactive computer system as part of the group Assignments 2 and 3.

Assignment submission:

1. Describe what you did to design, construct and explain the prototype in Assignment 2.
 - 1.1 Describe three tasks that you did in Assignment 2? [3 marks]
 - 1.2 Explain what you learned from doing those tasks? [3 x 2 marks]
 - 1.3 What aspect of assignment 2 would you do differently if, in the future, you were in a team that was building an early-stage prototype? [1 mark]
2. Explain what you learned from performing the user-evaluation in Assignment 3.
 - 2.1 Write about half a page. [5 marks]
3. Explain what you learned from analyzing the data that was gathered in Assignment 3.
 - 3.1 Write about half a page. [5 marks]

Number of pages in your submission using the assignment template (Word document)

Similarly to assignment 1, you can use the Word template or you can make an equivalent document template for yourselves.

Write between two and three pages in total and submit your work as a PDF.
